Environmental badge obligatory for green zones in Germany also for foreigners!

Purchase your badge prior to your visit to Germany!

Environmental badge obligatory for green zones in Germany also for foreigners! Purchase your badge prior to your visit to Germany!

Already from March 1, 2007 on, vehicle restrictions in environmental green zones can be issued in cities and local districts in Germany. The requirement is that they were specially marked as being green zones by the city or municipality.

The areas especially threatened by fine particulate matter must be marked as "environmental green zones" with the sign 270.1. The obligatory additional sign then regulates which vehicles with which colour of environmental badges are allowed access into this area. The sign 270.2 rescinds the environmental green zone.

Vehicles without environmental badge may not pass through the green zone, otherwise a penalty of 80,00 € , even if the vehicle would be allowed to pass through the zone based on its emission value. This is also valid for all vehicles registered in foreign countries, like cars, trucks, and busses, as well as for business travellers and for tourists. For this reason it is recommended that all drivers to inform themselves about the environmental badges, and to purchase it on time, if they wish to enter one of the increasing number of green zones during the next months and years after January 1, 2008.

Dear friend,

In Germany all cars need a so called pollution badge.

For the Baldeneysee this pollution badge should have the color green.

You have to order this pollution badge in your town and have to put/ glue it on the front shield of your car.

Thanks for your efforts.

***Kind regards,
Jürgen Konrad***
